

Ridgedale XTR

COATED COVER

DIGITAL APPLICATIONS | KNOWS NO BOUNDARIES

Made from lightweight flexible fibers, Ridgedale XTR is a workhorse paper with superior stiffness. From variable data postcard applications to on-demand book publishing and packaging solutions, there's nothing this sheet can't do. Ridgedale XTR is a two-sided sheet with a gloss coating on one-side and a premium silk coating on the other.

EXPECT GREAT RESULTS FOLD IT! SCORE IT! EMBOSS IT!

No matter how complex the printing and finishing process, Ridgedale XTR is always up to the challenge. It's a consistent performer with a unique coating and flexible fiber structure that won't crack along the crease

BRIGHTNESS

Its 93 brightness responds well to all color applications

GREEN SOLUTIONS ♻️

100% Recyclable and compostable; made from pure raw materials and primary fibers
