THERMANENT® DIGITAL PS

PRESSURE SENSITIVE POLYESTER ENGINEERED FOR DRY TONER/LASER PRINTING

Create your own promotions.

Features

Thermanent® Digital PS is a polyester pressure sensitive sheet that offers strength, digital runnability and durability. Offered in both permanent and low-tack adhesives, and four different finishes, Thermanent® Digital PS fits a wide range of applications.

Benefits

- › Premium clean stripped edges mean your machine won't get contaminated from adhesive goo
- › Durable labeling and removable/ repositionable applications without leaving residue on surfaces
- › Beautiful permanent images even in the harshest environments
- › No shrinking or swelling when exposed to heat or moisture
- › A thin film release liner improves runnability and dimensional stability
- › Incredible tear strength
- › Prints and looks like regular paper
- › Permanent and low-tack adhesives

Applications

- Reverse Printed Window Stickers
- Permanent Labeling
- Shelf Labels
- Custom Food and Beverage Labels
- POP Signage
- BUMPER Stickers
- Removable Holiday Decals
- Permanent Regulatory Labels
- Removable Labeling

FINISHES

Gloss/White: White opaque film with a smooth glossy surface

Matte/White: Bright white opaque film with an elegant silky matte surface

Gloss/Clear: Crystal clear polyester film with a glossy surface

Frosted/Clear: Translucent film with a silky smooth finish

ADHESIVES

Low-Tack: Removable, reusable and repositionable adhesive

Permanent: High grab, high-tack permanent acrylic pressure sensitive adhesive for long duration or rough surface label applications
